

Come to a Town Hall Meeting to Affirm

We ARE the Change We Need!

Monday Nov. 17, 2008 , 7- 9 PM

First Unitarian Church

2125 Chestnut St. Philadelphia

At Neighborhood Networks, we agree with President-Elect Obama that we must be the Change we seek. To get universal health care, or independence from big oil, we have to support new direction. Neighborhood Networks has been walking that walk since 2005, organizing in our own communities throughout Philadelphia. On Nov.17 we will have a **Citywide Town Hall** meeting to engage everyone who participated in the Obama campaign to continue this work:

First we'll hear from two inspiring young Philadelphia leaders discuss local challenges and opportunities:

Maria Quinones-Sanchez, Elected to City Council in 2007

Seth Williams, Former Philadelphia Inspector General

Then **Marc Stier**, PA State Director, Health Care for America Now, and **Carol Rogers** of AFSCME District Council 47, will tell us how to work for health care for all. After that we'll break into small "neighborhood" groups and meet others who share our commitment to stay together and move ahead. And then, everywhere in the City we'll work to ensure that the change is real.

Yes, We Can!

A Philly **Neighborhood Networks** event.
